Please Note:

- The recommended list is based upon testing conducted by the manufacturer in a lab simulated environment, and the results can vary in certain field applications due to a number of factors.
- The absence of a dimmer from this chart does not necessarily imply incompatibility.
- Please reference the dimmer manufacturer's instructions for installation.

Application Notes

- In situations where there are multiple dimming circuits sharing the same breaker feed, ELV dimmers should be used.
- For best dimming results, the ELV dimmer or trailing edge dimmer type is recommended.
- ELV dimmer or trailing edge type dimmer required the neutral wire for installation.
